

Technical Fact Sheet

3M Di-Noc

3M DI-NOC Architectural Films are a decorative surface finish available in over 500 designs. 3M DI-NOC Films are durable, cleanable and flexible PVC films that features 3M Comply Adhesive air release technology for fast, easy and virtually bubble application. Use DI-NOC film in place of, or to enhance natural materials. These films have excellent adhesion and flexibility, allowing them to be used on flat or complex curved substrates, walls, furniture and fixtures. DI-NOC film is ideal for refurbishing and updating fixtures. DI-NOC Architectural Films are lightweight, self-adhering and can be applied on site to the existing substrate. Using DI-NOC Films can reduce your labour and material cost compared to using natural materials. With DI-NOC Films, you can create a whole new look quickly without compromising the aesthetics.

Features

- 900+ patterns, colors and textures for more design freedom
- More cost effective versus traditional construction materials
- Quick and easy installation with less downtime, noise and disruption
- Resistant to common stains, cleaners and disinfectants
- Easy to clean, disinfect and maintain

Technical Fact Sheet

- Excellent durability compared to traditional interior surface materials
