

Technical Fact Sheet

3M Auto Ceramic IR

3M Ceramic IR Series is an automotive window film that combines a neutral appearance with nano-ceramic technology for excellent infrared heat rejection, glare reduction and everyday driving comfort. It helps reduce heat build-up without the reflective look of metalized films.

Features

- Great infrared heat reduction due to this absorptive nano-ceramic technology
- High total solar energy rejected for greater thermal comfort. Reduces the feel of sun on the skin
- No electronic or mobile phone interference, including 5G, with a metal free design
- Low visible light reflectivity value and no mirror-like appearance to disrupt your view out
- Up to 99% UV protection (up to SPF 1000)
- Colour stability backed by a limited lifetime warranty

Technical Fact Sheet

- Non-metal design avoids corrosion concerns.
- Designed with optical clarity backed by a limited lifetime warranty
- Attractive neutral colour

Important Note

All statements, technical information and recommendation are based on tests we believe to be reliable, but the accuracy or completeness thereof is not guaranteed, and the following is made in lieu of all warranties of merchantability and fitness for the purpose: Sellers and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
