

Technical Fact Sheet

Neschen Window Grip UltraClear

Neschen Window-Grip® Ultra Clear is a crystal clear, self-adhesive PVC- free PET film with a glossy surface. The self-adhesive film was developed for indoor advertising and short-term outdoor use on flat and smooth substrates, such as glass, mirrors or monitors. A mirror-inverted print allows it to be applied to the inside of shop windows so that the advertising can be read outside. Neschen window-grip® ultra clear can be removed and repositioned several times without leaving any residue and without losing its adhesive power. This makes it particularly flexible in use.

Features

- Self-adhesive PET film
- Multiple removable and repositionable without loss of adhesive strength
- Easy and residue-free removal
- Ideal for shop window advertising with mirror-inverted printing
- Good scratch and water resistance after complete drying
- Very dimensionally stable
