

# Technical Fact Sheet

## Pacesetter Satin FSC (R)

Pacesetter Satin FSC® (R) is a premium satin coated art paper engineered to deliver exceptional print performance and refined visual results. Its smooth satin surface offers the perfect balance between gloss and matte, enhancing colour vibrancy and image detail while reducing glare for improved readability. Ideal for high quality commercial print, Pacesetter Satin is well suited to brochures, catalogues, flyers and corporate communications. FSC® certified for responsible sourcing, it provides a reliable and versatile solution for printers seeking consistent results and a professional finish across a wide range of applications.
