

Technical Fact Sheet

Neschen Easy Dot Print&Walk

Neschen Easy dot print 'n' walk is a white, printable floor graphics film with a textured surface for better slip resistance. Even when printed with latex and UV/UVgel inks, UV dot print 'n' walk achieves slip resistance up to R9. The floor graphics film uses proven easy dot® technology. This makes it very easy to apply without bubbles, and it can be re-detached as required. The adhesive technology makes repositioning very easy. UV dot print 'n' walk is ideal for all smooth substrates in indoor areas. The film is designed for short-term use at trade fairs, for example, for sales and promotions at the point-of-sale.
