

Technical Fact Sheet

GF LAM PPS2W Barrier Film

GF LAN PPS2W Barrier Film is a 2.3 mil white metalized print-treated polypropylene film coated with white pigmented permanent acrylic pressure sensitive adhesive on a smooth overlay liner. This film is designed to accept a variety of UV curable and solvent-based screen inks. May also be used with flexographic, offset and letterpress inks but must be tested prior to use. This product is designed as a low-cost opaque over laminating film for two-ay decals. Film is especially suited for use with clear low tack vinyl or static cling vinyl window decals.
