

Technical Fact Sheet

Hahnemühle FineArt Baryta Satin 300gsm

Hahnemühle FineArt Baryta Satin is a natural white FineArt inkjet paper made of 100% a-cellulose that has been refined with a special inkjet coating for FineArt applications. The subtly textured, smooth base paper contains no optical brighteners and has a silky, smooth surface texture with a beautiful feel. The satin-gloss premium inkjet coating guarantees exceptional print results with intense colours, deep blacks and outstanding sharpness. The barium sulphate within the coating makes FineArt Baryta Satin a viable alternative to analogue baryta paper. The acid- and lignin-free FineArt inkjet paper meets the most exacting requirements for age resistance and produces stunning FineArt reproductions of black and white and colour photographs.
