

Technical Fact Sheet

3M Knifeless PPF Precision Line Tape

3M™ Knifeless™ PPF Precision Line Tape is designed for paint protection film installations, allowing precise cutting of film without using a blade. Manufactured by 3M, it features a patented filament that delivers clean, accurate cuts along curves and contours while eliminating the risk of damaging paint or film. Ideal for PPF and vinyl applications, including tough materials like metallics and overlaminates, it helps achieve a smooth, professional finish with minimal visible edge.
