

Technical Fact Sheet

Contravision Performance 40%RL

Contravision Performance 40% RL is a premium perforated white-on-black vinyl designed for producing high-impact one-way vision window graphics. With 40% transparency, it offers an excellent balance between vibrant external image display and clear visibility from inside the window. Engineered for durability and reliable print performance, it is commonly used for vehicle windows, retail shopfronts and large building wraps where strong graphics and internal visibility are both required.
