

Technical Fact Sheet

3M Di-Noc Abrasion Resist

3M™ DI-NOC™ Architectural Finishes Abrasion Resistant are decorative surface finishes for high-traffic areas that can help you quickly remodel and reuse new or existing surfaces while limiting material and labor costs, downtime and construction waste. The abrasion-resistant top layer reduces the visibility of scratches for interior applications. These DI-NOC AR Series architectural finishes are durable films and are available in various patterns, colors and textures like wood, metal and stone. They can be applied to metal, wood, glass and complex curved (3D) surfaces. 3M™ Comply™ Adhesive technology virtually eliminates air bubbles, simplifying and speeding up the application process.
