

Technical Fact Sheet

3M Di-Noc Recycled Content

3M™ DI-NOC™ Architectural Finishes E-Series RC Recycled Content* Film offers you more variety and options as you pursue your sustainability goals by incorporating beautiful earth tones that bring a bit of the sea to your walls. Created in part from processed seashells and post-consumer recycled polyester, this durable adhesive film applies easily and quickly – greatly reducing the cost, disruption and material waste involved in the demolition and rebuilding of fixtures. 3M™ Comply™ Adhesive Technology has air-release channels in the liner. This virtually eliminates bubbles in the adhesive during installation.
