

Technical Fact Sheet

Conqueror Smooth CX22 WM FSC(S

Conqueror CX22 is an ultra-smooth, shiny business paper intended to produce outstanding high-definition prints and designed with a low-friction surface to avoid paper jams during high volume printing. This creative CX22 paper features a silky surface and satin finish, ideal to create high-end corporate communication materials, or modern and luxury publications such as product presentations, sophisticated brochures, important press releases or prestigious business cards.
