

Technical Fact Sheet

Mimaki LX Ink (IM)

Mimaki LX Ink (IM) is a water based latex ink that was developed by concentrating Mimaki's technologies, without losing the vibrant color and high color reproducibility of solvent inks. The latex ink allows for printing on a wide range of materials including PVC, paper, fabric, and PET film without the ink absorbing layer.

Features

- Eco-conscious and versatile ink
- Water-based ink
- Wide colour gamut printability
- Quick drying
- Same outdoor durability as solvent inks
- Printable on a variety of substrates including uncoated media

Technical Fact Sheet

- Quick latex curing/drying means improved productivity out of your work
