

Technical Fact Sheet

Breathing Color Crystalline Satin Canvas

Crystalline is a 440gsm aqueous inkjet canvas that comes pre-made in satin finish. No varnish required. Print and stretch immediately. This high performance inkjet canvas should be used with photo black ink and will deliver industry-leading Dmax and color gamut a step above every other glossy or matte inkjet canvas available today. It is ideal for high-end fine art and photography reproduction. Features a bright white satin finish with a 65% polyester and 35% cotton base. It has a rated opacity of 98% along with a textured, scuff- and water-resistant surface. Crystalline is the only OBA-Free bright white glossy canvas ever developed.
