

Technical Fact Sheet

Epson SC P-20070

The Epson SureColor Production 20070 is a 64" (1,626mm) Large Format Printer that is designed for medium-high volume graphic, indoor POS and poster printing. It supports a wide range of roll and sheet based media and features an all new PrecisionCore MicroTFP print head with Variable Sized Droplet Technology™ for output with superior resolution, gradations and colour density. It uses Epson UltraChrome® Pro all-pigment aqueous ink for quality colour and premium B&W output that is consistent, predictable and durable. The SC-P 20070 Cartridges feature an extra-large capacity for extended operation with a low cost per print due to the new PrecisionCore printhead and reduced running costs. The printer ships with an output bin for cut sheets as well as an optional Auto-Take-Up system for continuous roll to roll production. It provides a high speed, cost effective and flexible solution for printing high quality colour and premium black-and-white images in a wide format. It produces durable, ultra-high resolution output with a platform that has proven dependability and is easy to maintain.

Important Note

All statements, technical information and recommendation are based on tests we believe to be reliable, but the accuracy or completeness thereof is not guaranteed, and the following is made in lieu of all warranties of merchantability and fitness for the purpose: Sellers and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
