

Technical Fact Sheet

Epson SC P-9070

The Epson SC P-9070 is a 44" (1118mm) Large Format Printer that is designed for premium photo, fine art, proofing & packaging design. It supports a wide range of standard and specialist media in roll and sheet formats. It features a PrecisionCore® Thin Film (TFP) head with Variable Sized Droplet Technology™ that enables the output of images in high resolution with superior fidelity and tonal gradation. It uses Epson's latest UltraChrome® HDX all-pigment aqueous ink for accurate colour with an enhanced gamut, Dmax and image durability. The printer uses a 10 colour ink configuration with two levels of black, a choice of a third black or alternative Violet ink for outstanding colour and B&W prints with up to 99% PANTONE® coverage. Cartridges come in sizes to suit various levels of use and cost per print requirements. An optional SpectroProofer (ILS30) is available for precision colour management and ISO standard proofing work.

Important Note

All statements, technical information and recommendation are based on tests we believe to be reliable, but the accuracy or completeness thereof is not guaranteed, and the following is made in lieu of all warranties of merchantability and fitness for the purpose: Sellers and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
