

Technical Fact Sheet

Epson SC P-9560

The Epson SureColor P9560 is a 44" (1,118mm) Large Format Printer that is designed for premium photo, fine art, proofing & packaging design. It supports a wide range of roll and sheet based media and features an all new PrecisionCore MicroTFP print head with Variable Sized Droplet Technology™ for output with superior resolution, gradations and colour density. It uses the new UltraChrome® Pro12 all-pigment aqueous ink for quality colour and premium B&W output that is consistent, predictable and durable. The SC-P9560 cartridges feature an extra-large capacity for extended operation with a low cost per print due to the new PrecisionCore printhead and reduced running costs. The printer also includes new sub tanks so you will not run out of ink during a print job again4. The printer ships with a fabric retractable output bin for cut sheets as well as an optional Auto-Take-Up system for continuous roll to roll production. An optional HDD is available for efficient workgroup operation with print server and reprint functionality along with an optional a high-speed Postscript® module which includes a HDD meaning users can directly print postscript files (PDF, EPS) and raster files (JPEG, TIFF) without the need of a PC.
