

Technical Fact Sheet

Epson SC P-906

The Epson SureColor SC-P906™ delivers professional features including high-capacity cartridges with an expanded colour range, new printing modes, networking and wireless connectivity, large touchscreen display, plus advanced media handling. UltraChrome® PRO10 pigment ink, combined with Epson's innovative MicroPiezo® print head, enables the SC-P906 to produce gallery-quality black & white output, plus improved vivid colour prints with breathtaking blues and violets thanks to the new Violet ink that is now on board. The Epson SureColor P906 also has dedicated lines for all colours so now you do not have to wait to switch between the Photo / Matte Black ink carts saving you time and keeps you printing more efficiently. The Epson SureColor P906 is setting new benchmarks in A2+ professional photographic printing, delivering the highest D-max to date and unsurpassed black and white photography along with outstanding colour exhibition quality prints. The SC-P906 is 30% smaller than its predecessor and is ideal for amateur and semi-professional photographers and for any business that has a regular requirement for high-quality colour presentations.

Important Note

All statements, technical information and recommendation are based on tests we believe to be reliable, but the accuracy or completeness thereof is not guaranteed, and the following is made in lieu of all warranties of merchantability and fitness for the purpose: Sellers and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
