Epson SC T-3200

The SC-T3200 features Epson's latest PrecisionCore™ print head and aqueous UltraChrome® ink chemistry. It will print an A1 image in as little as 28s with output that dries almost instantly to be water and rub resistant. It is extremely cost-effective to run with low power and low ink consumption. Ink ships in a range of cartridge sizes to suit different production and cost-per-print requirements. Designed for business and corporate environments, the printer can be purchased in either a desktop or floor-standing configuration, has a small footprint, and can be installed against a wall or in a corner. It ships with a suite of software that enables easy printing from office and CAD/GIS applications complete with job costing and remote management facilities. An optional HDD is available for workgroup installation along with a high-speed Postscript® module for design and poster work.
