

Technical Fact Sheet

Epson SC F-6460

The Epson SureColor F-6460 features enhanced image quality with faster performance and simpler operation. It suits a wide range of production applications from customised fabric and garments to quality décor and merchandise, premium hard and soft signage. It can be ordered in either a 4c or 6c configuration and uses convenient 1.6L ink pouches. Prints are made on paper which is transferred (sublimated) via a heat press onto material with a polyester base or polyester pre-treatment.
