

Technical Fact Sheet

Mimaki TX500P-3200DS

The Mimaki TX500P-320DS considerably reduces production time through the simultaneous processing of two operations, printing and color fixation, and can meet various needs from samples to large-lot production within quick delivery times. The 3.2-m-wide direct sublimation Tx500P-3200DS inkjet printer is suitable for printing on wide fabrics used for creating soft signage or on home furnishing products, and its unique simultaneous printing and color fixation capability, expands business opportunities.
