

Technical Fact Sheet

Mimaki MM700-1800B

The Mimaki MM700-1800B is a direct-to-textile digital inkjet printer capable of accommodating high-mix low-volume production, still enabling large-lot printing. Its many features ensure reliable production and excellent print results at high speeds.

Features

- A best-in-class print speed: 800m²/h
- New head for high-speed printing
- Speed and beauty, achievable printing technology
- Belt meandering and belt feeding amount correction functions
- Overlap processing
- Stable and reliable operation

Technical Fact Sheet

- Excellent, reliable textile transportation mechanism
- The wrinkle sensor prevents printer problems
- The jam sensor reduces damages to printheads
- 20-litre ink packs extend the continuous print operation time
- Temperature adjustment system increases the head performance
- Wide touch panel display
- Four ink types available to accommodate a wide range of materials
- Mimaki genuine unit
- Feeding unit
- Additional drying heater
- Drier/ Winder unit
- Camera calibration

Important Note

All statements, technical information and recommendation are based on tests we believe to be reliable, but the accuracy or completeness thereof is not guaranteed, and the following is made in lieu of all warranties of merchantability and fitness for the purpose: Sellers and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
