

Technical Fact Sheet

3M Night Vision 35

Enjoy enhanced views, savings and comfort with 3M Sun Control Window Film Night Vision Series. Great heat rejection helps provide energy savings and improved comfort. Enhanced views with low interior reflectivity, especially at night. Available in 3 VLT's (15%, 25%, 35%). Helps reduce glare and eye discomfort. Helps extend the life of furnishings by significantly reducing harmful UV rays, the largest cause of fading. Excellent scratch-resistant coating 3M nano- technology enhances colour stability. Comprehensive warranty from 3M (12 Years Commercial & Limited Lifetime Residential).

Features

- Helps block the sun's damaging UV rays, reduce glare and reject up to 71% of the sun's heat
- Designed to reject solar heat that is produced from visible light, while providing significant glare relief
- Allows 15% to 35% of the natural light into the space by day, and thanks to a low interior reflectivity, you can still enjoy the view by night
- Higher exterior reflectivity means you can enjoy enhanced privacy with your windows both day and night
